Ylan,

I understand that you will be our staff lead on the ocean dumping issues that is growing as a coda to our Montrose site. Much has occurred in the last two weeks,

**Ex. 5 Attorney Work Product (AWP)** I've attached some notes from a conversation with the investigator, which should generally catch you up, and I hope to start including you in email chains with John Lyons (if that's alright with you). Before too long, perhaps we can get on a call to coordinate, but that's not looking good for today, at least. Keith Olinger is assigned as the new case investigator, so I will forward to you some of his recent posts as background. There is nothing you need to jump on immediately, I just want to get you in the loop as this develops.
